Commemorative Coins: To Be Or Not To Be

By DON SAHIB

The Heart of America Numismatic Association is circularizing the coin clubs in an attempt to enlist their cooperation in a resolution (published in the March issue of *The Numismatist*) opposing the issuance of mint-marked commemorative pieces if coined at the three United States mints. It is evidently believed that a memorial organization, receiving due notification of the collectors' intention not to buy more than one coin of a design, will not dare to stipulate coinage at more than one mint.

I am afraid the H. A. N. A. does not understand the operations of the collector's mind. The primary purpose of any collection being completeness, the H. A. N. A. resolution would soon be a mere scrap of paper. A commemorative coin sponsoring organization need only specify coinage at the three mints, and all the members of the country's coin clubs and the American Numismatic Association, whole-heartedly co-operating, would be powerless to do anything about it. They could denounce and resolve and refuse to buy, but the coins shall have been issued, and some of them would find their way into the collections of persons who are not members of any coin club or the A. N. A. and the remainder would be in dealers' stocks. **And no collection would be COMPLETE without them.**

The unsuccessful attempts of philatelists to blacklist certain stamp issues should be a lesson to numismatists. The latest effort in United States stamps was the Farley ungummed, imperforated 1935 reissues of certain 1934 commemorative postal paper. According to many commentators, who earn at least a part of their living writing about stamps, the 1935 reissues were mere pieces of paper and had no place in any serious philatelist's collection. "Farley's Follies" they were called, but the Washington Philatelic Agency, sole distributor, received one and three-quarter million dollars for these "pieces of paper" in three months.

Just why are collectors objecting to the issuance of several commemorative coins of the same design? The only answer I've been able to get is, "It's a racket." From that minutely detailed explanation it can readily be seen that collectors feel that they are being imposed upon by the necessity of buying more than one coin of the same design. Why, memorial associations are pikers compared to the United States Government in the variety of coins issued of the same type. We haven't had a new regular half dollar since 1917 or a different cent in 27 years.

It may be argued that souvenir coins and regular issues cannot be compared—the one type commemorating historical events and the other being intended for circulation. Ah, but only collectors have made the distinction. So far as the non-collecting citizen is concerned, he has as keepsakes a couple of commemoratives and a few regularly issued coins that are seldom found in circulation.

If souvenir pieces are to be placed in a class by themselves as purely

collectors' items, then numismatists must be willing to pay for the distinction or have the coinage stopped. Memorial coins are issued either to commemorate special events, and nobody knows where the money goes, or to help pay for monuments or celebrations that commemorate historical persons, places or things. Now, there aren't enough collectors in this country to pay for the current Texas, Arkansas and San Diego celebrations or the erection of the four Daniel Boone shrines if only one coin of each design is made at one mint. It may be said, of course, that a celebrating State's residents and visitors should be asked to buy the souvenir pieces. That method was apparently tried by the Texas and San Diego commissions. Figures are not available as to the number of 1934 Texas coins returned for melting, but the San Diego organization has sent back about 160,000 pieces. And, without great advertising expense, how would the Boone shrines be paid for? Finally, would collectors like to see the Stone Mountain and Philadelphia Sesquicentennial and Columbian issues duplicated?

The strongest objection to the present method of commemorative coin distribution, about which little has been said or written, is the very good possibility that they will find their way into dealers' hands before collectors have an opportunity to secure them. I refer specifically to the Arkansas 1935 S and D coins, the Oregon Trail issue, and the Hudson (N. Y.) half dollars. (Speaking about the extremely unsatisfactory Oregon Trail issues, I hear that the large Eastern stamp and coin company that took over their distribution is now planning to issue one from each mint during 1936.)

Though I doubt that coin collectors can put a stop to mint-marked commemoratives, they can protect themselves against monopolizing a memorial issue by a dealer or group of dealers. Numismatists can band together and refuse to buy from monopolistic dealers ANY and ALL coins with the exception of the particular commemorative that caused the action to be taken. After all, a dealer remains actively in business as long as he receives orders from collectors, and a blacklisting resolution would restrain a dealer from monopolizing a commemorative issue because he would not care to endanger his whole business for whatever he could earn on a temporary issue of coins. A celebrating commission, on the other hand, is short-lived, and a threatening resolution would be of little value, since in the end the commission could dispose of its coins to dealers or return them to the United States treasury for melting.

How are collectors to find out which dealers monopolize commemorative issues? Well, they know who took over the distribution of the Oregon Trail, Hudson, and Arkansas 1935 S and D half dollars.

The present avalanche of memorial pieces has greatly cooled the ardor of collectors for commemorative coins. Perhaps now they'll do what they should have done when the bill to substitute medals for coins was introduced in Congress last year. Instead of concurring in the bill and so advising their Congressmen, collectors flooded Washington with proposals to regulate the issuance of memorial coins. The suggestions were so restrictive in nature that, if followed, commemorative pieces would be issued solely for collectors, and the United States Government could hardly be expected to do that.

Summing up the situation, numismatists have two courses open: First, they can do nothing, and let their grumbling and growling be drowned out by a flood of new commemorative issues, or, second, they can swamp their representatives in Washington with pleas to discontinue souvenir coins. For, human nature being what it is, there can be a choice only between two extremes.

BERMUDA'S FIVE-SHILLING NOTES TO BE REPLACED.

Bermuda's five-shilling bills, first issued November 16, 1935, will be replaced by new ones made of better paper but with the same design bearing the late King George's portrait, probably in April or May, John T. Trimmingham, Colonial Treasurer, said recently. Eventually twenty-shilling, ten-shilling and five-shilling bills bearing King Edward's portrait will be issued. They will not be issued until the King has approved the portrait to appear on them.

AN ESSAY ON MEDALS BY FRANKLIN.

In a recent catalogue of the American Art Association Anderson Galleries, Inc., there is described a Benjamin Franklin manuscript, all in Franklin's writing, an apparently unpublished essay by Franklin on medals and coinage, about 1780. Following is from the catalogue:
"An apparently unpublished essay containing Franklin's ideas on turning the numerous medals awarded by the Continental Congress to useful purposes. The event which occasioned this essay was the awarding by Congress of a medal to Viscount Louis de Fleury for his leadership in the attack on Stony Point under General Wayne. Franklin ordered the medal engraved in France at a high cost, and when many other medals were ordered by Congress he wrote his ideas upon the subject in this essay. The major portion is in the handwriting of his secretary, but the portions quoted in italics are by Dr. Franklin.
"The forming of Dies in Steel, to strike Medals or Money, is generally with the intention of making a great Number of the same Form.
"The Engraving those Dies in Steel is, from the Hardness of the Substance, very difficult & expensive.
"Where only one Medal of a kind is wanted, it seems an unthrifty Way to form Dies for it in Steel to strike the two Sides of it, the whole Expense of the Dies resting on that Medal.
"It was by this means that the Medal voted by Congress for M. Fleury cost 100 Guineas. When an Engraving of the same Figures & Inscriptions might have been beautifully done on a Plate of Silver of the same Size for two Guineas."
Dr. Franklin then gives a history of the ancient medals which were used as coins, and draws his conclusion as follows:
"I therefore wish the Medals of Congress were ordered to be Money, and so contrived as to be convenient Money, by being in value aliquot Parts of a Dollar."
"Copper Coins are wanting in America for small Change. We have none but those of the King of England. After one Silver or Gold Medal is struck

from the Dies, for the Person to be honour'd, they may be usefully employed in striking Copper money, or in some Cases small Silver.

"The nominal Value of the Pieces might be a little more than the real, to prevent their being melted down; but not so much more, as to be an Encouragement of Counterfeiting."

- Endorsed on the back by Dr. Franklin "Thought concerning Medals," and by a later owner of the manuscript: "Dr. Benj'n Franklins thoughts on Medals and Coins sent me by his Grandson Wm. Temple Franklin. August 5, 1817. Sam'l Starbuck."

There is also the possibility that this essay, written soon after the Fleury medal was struck, was amended by Dr. Franklin after his return to America, when the agitation for copper coinage was at its height in 1787. The somewhat shaky character of Dr. Franklin's handwriting would seem to indicate the later date."

FOUR ARRESTED IN COUNTERFEIT BILL PLOT.

Three men are under arrest in Sioux City, S. Dak, while Secret Service agents investigated a unique plot by which engravings were obtained and approximately \$6,000 in counterfeit \$10 bills printed.

Federal operatives said two of the men were duped into making the plates by a third, who told them they were to be used in printing "rubber novelty money." The engravers demurred at first, the operatives said, but consented to do the work after one of the men displayed a letter from a local attorney, declaring such plates would not be illegal because there was "no intent to defraud."

Agents said photographs of legitimate \$10 bills were used for engraving. On the face was printed "counterfeit" and "don't take me." When the plates were submitted, they said, this warning was chiseled out and a serial number substituted.

The Latest on Commemorative Coins

L. W. Hoeffcker, of El Paso, Texas, chairman of the Legislative Committee of the A. N. A., has prepared a bill to prohibit the issue of commemorative coins heretofore authorized after December 31, 1936. The bill is as follows:

A BILL

To limit the time during which Commemorative Coins authorized by Acts of Congress may be struck by the Mints.

Be it resolved that on and after December 31, 1936, all authorizations heretofore made by Acts of Congress for minting of Commemorative Coins shall terminate, and that thereafter all future authorizations for the minting of Commemorative Coins shall terminate on December 31 of the year in which said authorizations are made.

Under the provisions of this bill, after December 31, 1936, no more coins can be struck for such issues as the Oregon Trail, the Texas Centennial, the Daniel Boone, the Arkansas Centennial and the San Diego Exposition, for which large issues were originally authorized. It would also require that all new issues must be struck only in the year they are authorized.

Mr. Hoeffcker writes that Mr. Sommers, chairman of the Committee on Coinage, Weights and Measures of the House, has promised to put the bill through the House, and then will urge its passage in the Senate.

Word from Washington on March 24 is to the effect that the Banking Committee of the Senate has favorably reported most of the bills authorizing commemorative coins before it. A number of these bills are published elsewhere in this issue, and others have recently been published in these pages. The favorable report includes bills for the Robert E. Lee, Jefferson Davis and William Henry Harrison medals, also mentioned elsewhere in this issue.

Our New Advertising Rates

On May 1, 1936, new advertising rates will become effective for The Numismatist. An increase of $33\frac{1}{3}$ per cent. over present rates will go into effect on that date.

This step has not been taken without due consideration. It has been conceded by all concerned that our rates have long been too low, considering the cost of publication and the advantages the magazine offers to those engaged in the commercial side of numismatics.

When the A. N. A. became the owner of The Numismatist, January, 1911, a basic rate of \$10 a page was fixed. This remained unchanged for many years. January 1, 1925, an increase of \$2.00 a page was made, but at that time discounts for payment in advance and for prompt payment became effective. This discount for payment in advance made the net rate substantially the same as it was before the increase.

The very great increase in the number of readers of the magazine in late years more than justifies the increase in advertising rates. That it

has not been made sooner is due to the fact that the magazine is not conducted for profit. To this extent our advertisers have been the beneficiaries. But with the largely increased circulation of the magazine, carrying with it an increased number of potential patrons of our dealers, we would not be as fair to ourselves as we have been to our advertisers over a long period of years if we failed to take this step.

The discounts will remain effective as before.

Below is a table of the advertising rates which will go into effect May 1, 1936:

	1 Mo.	3 Mos.	6 Mos.	1 Year
One inch	\$1.35	\$3.75	\$7.00	\$13.25
One-eighth page	2.25	6.75	12.75	23.25
One-quarter page	4.00	11.50	22.00	42.75
One-half page	8.00	22.50	44.00	80.00
One page	16.00	42.50	83.00	153.00
One page, inside cover	20.00	56.00	104.00	190.00
One page, outside cover	23.25	64.00	123.00	225.00

When additional space is used by a contract advertiser, the additional space will be charged at the one-time rate.

A Coin With Cleveland's Portrait

A coin to be struck for general circulation bearing the portrait of Grover Cleveland was urged in a resolution presented by George W. Williams, president of the Baltimore Coin Club, at its meeting on March 5. The resolution is as follows:

"To the Congress of the United States of America:

"Whereas March 18, 1937, will be the hundredth anniversary of the birth of former President Grover Cleveland; and

"Whereas it is deemed fitting that such anniversary should be marked by the Congress of the United States, it is respectfully requested by the Baltimore Coin Club that the Congress cause to be issued during 1937, for general circulation, one of the current coins of the United States bearing upon one side a portrait of former President Grover Cleveland."

It was brought out in the discussion by the club that in 1937 the present type of nickel, the country's most popular coin, will have been in circulation 25 years and that the design can then be changed without a special act of Congress. A new design for the dime next year would require such an act. The nickel, on account of its larger size, offers an advantage over the dime, and the frequent criticism of the present design of the nickel suggests such a change. The Lincoln cent was adopted on the 100th anniversary of the birth of the Great Emancipator, and the Washington quarter on the 200th anniversary of the birth of the Father of His Country, and a Cleveland nickel on the 100th anniversary of his birth would form a fitting companion piece to these coins. The coin would be struck for general circulation.

The resolution has been sent to Senator Tydings, of Maryland, with a request that he introduce a bill for the proposed design and that he give it his approval and support.

CANADIAN MINT REPORT FOR 1935.

The Royal Canadian Mint has issued a report showing that 12,771,193 coins were struck during 1935. Of this number 12,740,720 were issued. The total value of the coinage was \$870,120.

The final figure on the issuance of the Jubilee dollar is 428,120. No fifty-cent pieces were issued, but 537,997 silver twenty-five-cent pieces, 384,592 silver ten-cent pieces, 3,891,151 nickel five-cent coins and 7,891,151 bronze coins of one-cent denomination were struck.

Statement From The Rhode Island Tercentenary Committee

The following statement from the Rhode Island and Providence Plantations Tercentenary Committee, Incorporated, has been received from Percy Shires, executive secretary, under date of March 18:

"The Rhode Island Tercentenary half dollars were minted for the purpose of providing the people of Rhode Island with a memento of the celebration of the 300th anniversary of the founding of the State.

"In accordance with that purpose, these coins were placed on sale in thirty banks in all of the cities and almost all of the large towns in the State of Rhode Island on March 5. Within forty-eight hours almost the entire issue was sold out. Up to March 18, 1936, the committee has not sent outside of the State of Rhode Island a single one of these coins.

"The price of the Rhode Island Tercentenary half dollar has remained at \$1, and no attempt has been made by the committee to raise the price or commercialize this commemorative coin.

"The demand for these half dollars was unprecedented in its volume. Coin collectors have been unable to account for it. The committee had not stimulated the demand, for it had not advertised these coins nor given them any publicity, and it had not solicited orders or money from anyone. Unsolicited remittances were sent in from many people throughout the country, and the committee intended to comply with as many of these requests for coins as possible, after the demand within the State of Rhode Island had been satisfied. But the people of the State of Rhode Island bought up practically the complete issue, and consequently the committee began at once to refund money to those who had remitted.

"The chief regret of the committee at the present time is that 100,000 coins were not minted instead of 50,000 in order that the desire of all coin collectors might be satisfied.

"Very truly yours,
"RHODE ISLAND AND PROVIDENCE PLANTATIONS
TERCENTENARY COMMITTEE, INCORPORATED."

The Providence Half Dollar Issued

According to the Providence (R. I.) Journal, the issue of 50,000 of the Rhode Island Tercentenary half dollars was sold out in six hours after the sale opened. Extracts from the Journal's story on the sale on March 6 are given below:

"Approximately 45,000 of the Congressionally authorized issue of 50,000 coins were disposed of in 30 banks throughout the State, most of them being sold before noon, according to Arthur L. Philbrick, who, as treasurer of the Rhode Island and Providence Plantations Tercentenary Committee, Inc., was in charge of the distribution. The remainder of the issue, reserved to care for orders placed in advance, will not be placed on sale generally, Mr. Philbrick said. In the absence of complete records from banks outside Providence, Mr. Philbrick could not say whether any coins remained unsold in any community where the demand may not have been as great as in other sections of the State.

"The Rhode Island Hospital National Bank, however, acting as the depository and banking distributor of the coins, had exhausted its supply and was unable to fill repeat orders from other banks at noon yesterday, Mr. Philbrick reported.

" 'We certainly didn't expect to see the whole issue snapped up in a few hours,' said Mr. Philbrick, 'particularly inasmuch as Connecticut, with a population twice that of Rhode Island, had 20,000 coins minted last year

and after two months so many remained unsold that they were turned back to the Treasury and melted down for other coinage uses.'

"Indications that the new Rhode Island half dollars will be selling at a premium in the very near future was seen by Mr. Philbrick. It is not considered likely, however, Mr. Philbrick said, that the few thousand reserved coins will be sold at more than the established price of \$1, although this point has not been decided.

"We placed the coins on general sale within Rhode Island before we filled mail orders," said Mr. Philbrick, "in order that native Rhode Islanders would have an opportunity to get them. Now we expect we will have to scale down advance orders we have received and accepted payment for. Persons who ordered, and forwarded remittances for, six, eight or 10 coins will be given a smaller number, and the balance of their money returned, because we want to spread the distribution of the coins as widely as possible."

"Before the coins went on sale yesterday morning, it had been planned to allow any one person to purchase any number of them up to 10. On Wednesday evening, however, it was apparent that the demand would be great, and the maximum was cut to three, and many banks, on their own initiative, limited the sale to but one coin to any one person.

"The Rhode Island Hospital National Bank reserved only 680 coins for general sale in its own downtown rooms, where 20 people were waiting to purchase the pieces before the bank opened.

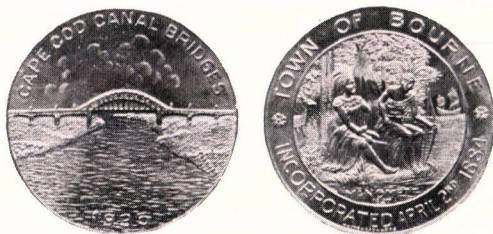

"Less than an hour after the banks opened, the Hospital National Bank received calls for additional shipments. A Woonsocket bank wanted 100 more coins, and did not get them.

"At the Industrial Trust Company, which had received 1600 advance orders, an allotment of 4800 coins was disposed of in a little more than three hours. Other banks reported similar experiences with eager buyers.

"Collectors and others sought the coins, and many, before the one-to-a-customer rule was enforced, bought them in sets of three, one of each mintage."

MEDAL FOR CAPE COD CANAL.

The medal illustrated here was issued by the Town of Bourne, Mass., to commemorate the opening of the two new high vehicular bridges over the Cape Cod Canal.

The Cape Cod Canal, which was constructed by private interests (the New York, Boston and Cape Cod Canal Company) was first opened to traffic in 1914. At that time there were two vehicular drawbridges and one railroad drawbridge. After the war the U. S. Government took over the canal. It has played an increasingly important part in coastwise traffic coming up to Massachusetts Bay by permitting many passenger and freight boats of medium size, and countless tows of coal barges, to avoid the dangerous passage outside of Cape Cod.

Several years ago plans were laid out by the U. S. War Department for the widening and deepening of the canal, and in connection with this these two high bridges were passed—so high that no draws are necessary, for all water-borne traffic in the canal passes freely under the bridges.

These two vehicular bridges are really beautifully built and one of them received high commendation in 1935, when they were opened, as a beautiful as well as useful engineering creation.

In addition to the above Senator Caraway has introduced an amendment to the bill authorizing a change in the design of the Texas half dollar which would permit coins with five different reverses. Mrs. Caraway's amendment would permit the striking of coins for the Arkansas Centennial with three different reverses.

A bill is also under consideration in the Senate to coin 50-cent pieces in commemoration of the outstanding public services of William Henry Harrison. The bill provides for an issue of 500,000 coins, to be issued upon request of the William Henry Harrison Memorial Association of Indiana.

A Half Dollar for the Great Lakes Exposition.

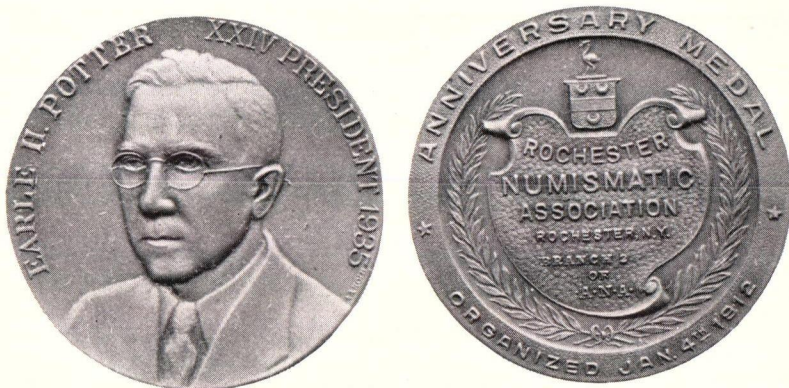

One of the latest bills introduced in Congress for a half dollar is that in commemoration of the centennial celebration at Cleveland, Ohio, to be known as the Great Lakes Exposition. The bill provides for a maximum of 50,000 pieces, to be issued only upon the request of the treasurer of the Cleveland Centennial Commemorative Coin Association. All may be issued at one time, or at separate times, and in separate amounts, dated 1936 and/or 1937, as it may determine. The bill was introduced in the House by Mr. Crosser, of Ohio.

BILLS FOR MEDALS FOR LEADING CONFEDERATES.

Last July, shortly before Congress adjourned, bills were introduced in the Senate by Senator Smith, of South Carolina, authorizing the issue by the United States Mint of two medals for Jefferson Davis and General Robert E. Lee, of the Confederacy. The bills provide that they shall be struck from models to be supplied by the principals of elementary schools of South Carolina. Under the provisions of the bills the medals would be delivered to a designated agent of the principals of the schools upon payment of the cost thereof. The medals would bear appropriate emblems and inscriptions commemorative of these men. Ten thousand of the Jefferson Davis medals would be authorized and 25,000 of the Robert E. Lee medal. The bills have not yet passed Congress.

MEDAL FOR R. N. A.'s TWENTY-FOURTH PRESIDENT.

The annual Presidential Medal struck by Bastian Brothers for the Rochester Numismatic Association bears the portrait of Earl H. Potter, a numismatist of many years' standing in Rochester.

The dies were prepared by Alphonse A. Kolb, also a member of the R. N. A. and a veteran die cutter. Only 35 specimens of this medal were struck.

NEW CLASSIFICATION OF CONFEDERATE PAPER MONEY.

It is believed that interest in Confederate States of America paper money may have lagged behind some other fields principally because full information in convenient form has not been freely available to the collector. The most complete descriptions and listings have been out of print for about 20 years and are so scarce as to be expensive, if available at all, or were published as a series of articles.

Listing of Confederate States of America notes only by types is sufficient for the beginner, but interest may soon lag if the collector remains uninformed of the many varieties and the broader field they offer. For the advancing collector and the specialist, listing of all varieties and smaller differences is necessary. Such detail information should be arranged according to a simple, comprehensive plan which will classify and clearly distinguish between major differences (varieties). Minor varieties should be classified and described to facilitate their study and identification at the option of the collector.

A mere listing of all the varieties of each type, without a logical arrangement and basic plan, increases the difficulties of the specialist and discourages the beginner and the general collector.

The recently published 32-page booklet, "Basic Classification and Listing of Confederate States of America Paper Money," by P. H. Chase, is believed to meet the need at low cost for a cataloging by types, varieties and sub-varieties which will be clear to the beginner and also sufficiently complete to satisfy the specialist.

In Chase's "Basic Classification and Listing" each type of note has a number, and each variety has a letter appended to the type number. Sub-varieties (differences) are also described, and their existence can be indicated, when the collector desires, by adding class numbers or letters in a definite sequence. In this way any note may be completely identified, to the degree of detail wanted, by a designation which conforms to a logical, basic scheme.

In the listing and description the arrangement of the material has been given particular attention in order to facilitate quick location of the desired item. Free use of tables in the section dealing with papers and watermarks has simplified and condensed this complicated phase of the subject.

Of particular value is a two-page summary and cross-index which briefly

describes each type of note and gives the corresponding numbers in the Scott, Bradbeer and Allen listings. The convenience of cross-indexing with Bradbeer is also provided under each type and variety in the listing.

The appearance of this new booklet should renew the interest of many paper money collectors and stimulate others to take up the study of Confederate States of America notes. There are still unexplored corners of this numismatic field.

SUGGESTS A NUMISMATIC AGENCY IN WASHINGTON.

I write anent commemoratives. If this mad house be numismatics, then bull fighting must be agriculture.

When Jim Farley pulled a fast one with stamps he at least had the decency to admit it when caught and did his best to square things, but when some prononents of the commemoratives got a taste of blood they opened their histories (many for the first time), and scanned the index for new events to commemorate to the extent of 5000 copies. Any day we may expect Chicago to ask for a coin commemorating the last stand of Mrs. O'Leary's cow; and I am certainly surprised that Hollywood has been so slow in urging a half dollar to commemorate the tenth birthday of Shirley Temple.

May I suggest a sane procedure which will permit the return of commemorative coins to the purpose originally intended?

1. Let the Department of the Mint organize a Numismatic Agency similar to the Philatelic Agency of the Post Office Department. Let the coins be all of one mint and one date for each event commemorated. Let the agency sell them at one dollar each and order from the mint sufficient coins to assure a stock for one year from date of issue, any unsold coins then to be melted.

2. Accruing profit to go to sponsors as at present.

We can then get back to our numismatics with the knowledge that the side show will be well taken care of.

Incidentally, such an agency might well handle our gold coins. It seems silly to melt up the perfect copies of these coins, thereby creating value for those citizens who were non-cooperative to the extent of hoarding gold. Gold coins, fine or better, might well be sold at their present gold value. Then the agency could purchase foreign gold and return to the vaults. The number of ounces in the treasury would be the same and the value and quality of our gold coins would be stabilized with nobody hurt except of course the "wise guy" who hoarded. The total gold so moved to collections would not be large in total; it would be bought at current prices; and would still be available if a real international crisis arose.

Think it over.

COMMEMORATIVE COINS.

Collecting commemorative coins has been a pleasure, very instructive and educational, since the 1892 Columbian half dollar was issued, but today I must truthfully and sadly say it is a racket. Why should the collecting fraternity pay and pay such high prices for these commemorative coins, when one party in the East and another party in the South pool the whole issue and make their own prices. We, the collecting fraternity, send our checks and money orders in plenty of time, read the advertisements in *The Numismatist*, and wait and hope for weeks for the day the coins are to be released and delivered, and then instead our checks and money orders come back, with the curt information, "All sold out."

A week or two later these same coins are advertised in *The Numismatist* for sale in singles or sets or in lots by some dealer "but" at what a price! We all know that these commemorative coins are and should be issued for a worthy cause and patriotic purpose only, and let the proceeds and profits go into its correct channels, and not to a few persons who have their selfish interest in mind and pockets only.

And why all these mint marks, without any change in the design on these

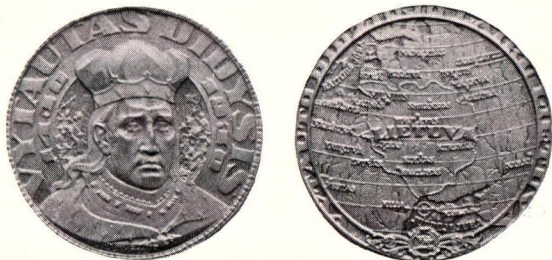

new issues? Is it just to get the younger and less experienced collector, and the more wealthy that can afford it? I know that every honest collector who has sincerely pursued his hobby for these many years regret that this fine hobby is turning into a common racket. Our large organization, the A. N. A., ought to surely try and do something to correct this evil and make coin collecting a pleasure.

MEDAL FOR ONE OF LITHUANIA'S NATIONAL HEROES.

Peter Rimsha, of Kanuas, Lithuania, a well-known sculptor and medallic artist, who has done some magnificent and originally designed medallic work in his native country, is visiting the United States. He has presented to the American Numismatic Association a specimen of a medal struck to com-

memorate the 500th anniversary of the death of one of Lithuania's national heroes, Grand Duke Vytautas the Great. The obverse has a portrait of the Grand Duke, and the reverse a map of Lithuania. It is struck in bronze and is the size of illustration.

A REPLY TO MR. FRIBERG.

"Money order fees and sales from postage must have netted a tidy sum to the Post Office Department by reason of Mr. Dunn accommodating those who responded to an earlier unsolicited announcement appearing in the New York press. Why he accommodated these New York responses to the exclusion of those subscribers who read his paid advertisement in The Numismatist, issued after the New York announcement, is probably more clear to him than to most disappointed coin collectors."

The foregoing paragraph is taken from a letter written by James A. Friberg, A. N. A. 5055, and published in the March issue of The Numismatist.

In fairness to C. Frank Dunn, Boone coin distributor, the following report is submitted without comment.

At the March 12 meeting of the Philadelphia Coin Club I put the following questions to 14 members, nearly half the active membership:

1. Did you order the 1935-34 S and D Boone coins?
2. When (BEFORE or AFTER the advertisement in The Numismatist)?
3. Did you get the coins?
4. Did you order the first five Boone issues?

In seven cases all the answers were in the negative (except, of course, No. 2). All the remaining seven members approached had ordered the 1935-34 S and D Boone coins AFTER the announcement appeared in The Numismatist. Six of the seven had also ordered the five previous Boone issues. Of those six, only one did not receive the 1935-34 S and D Boone coins.

RICHARD HOE LAWRENCE DEAD.

Richard Hoe Lawrence, retired New York banker and grandson of Richard Hoe, inventor of the rotary press, was found dead March 1 in the surf at Palm Beach, Fla., just south of the estate of Mrs. Bula E. Croker, widow of Richard F. Croker, former head of Tammany Hall. Mr. and Mrs. Lawrence had a house at 116 Sea Spray Avenue. Their home had been in South Salem, N. Y., since Mr. Lawrence's retirement fifteen years ago.

Mr. Lawrence was about 70 years old, the son of the late Cyrus J. Lawrence, with whose New York banking and investment house, Cyrus J. Lawrence & Son, he long was associated. He was a collector of Oriental art and the works of French and American painters and was an authority on Roman history and coins and an expert photographer.

For many years Mr. Lawrence was librarian of the Grolier Club of New York. He also was president of the American Numismatic Society for several terms. He was a member of the New York Historical Society and the Society of Iconophiles. His wife, Mrs. Jessie Cort Lawrence, and two sisters, Mrs. William S. Day and Mrs. Albert L. Webster, survive.

THE HANDLING OF THE OLD SPANISH TRAIL COINS.

Thomas A. Ferrari, in the March issue of *The Numismatist*, states that I held his money five weeks. The facts are his letter was dated September 16, received September 19, money returned September 28. I would have returned the money sooner, but had hopes that some one would not send in their money and I could fill his order. If he cares to keep posted he should subscribe for a magazine.

MINT-MARKED COMMEMORATIVE COINS.

In the March issue of *The Numismatist* I announced issues of 5,000 each D and S mint-marked coins for sale. Last night, less than 12 days after the distribution of *The Numismatist*, the deluge of orders for the 1936 D and S issues sold them up, and from today on all orders for them have to be returned. And I will not receive the coins from the Western mints for another week to distribute them!

Do collectors want mint-marked coins, or do they!

American Numismatic Association 1936 Convention

Minneapolis, Minn., August 22nd to 27th

To the Members of the American Numismatic Association: Greeting:

The Board of Governors, through its Chairman, Henry Hunt, have accepted the invitation from the Northwest Coin Club, Minneapolis, Minn., to hold the 1936 A. N. A. Convention in Minneapolis August 22 to 27.

Further details regarding the convention will be published later in *The Numismatist*.

A most cordial invitation is extended to every member of the A. N. A. to attend this convention.

T. JAMES CLARKE,
President, A. N. A.

Jamestown, N. Y., March 1, 1936.

OFFICIAL CALL FOR NOMINATIONS FOR OFFICERS.

All members of the American Numismatic Association have the privilege of nominating members for any of the elective offices.

Article IV, Section 2, By-Laws of the American Numismatic Association, reads as follows:

"At least 90 days prior to a Convention the President of the American Numismatic Association shall issue a call in the official paper for nominations for officers. Nominations for any office may be made by any member or Branch Society."

Officers to be elected are President, First Vice-President, Second Vice-President, General Secretary, Treasurer, Librarian-Curator, Chairman of the Board of Governors and four members of the Board of Governors.

Nominations will close forty-five days prior to the Convention. (August 22nd, 1936).

All nominations to be sent to Harry T. Wilson, General Secretary, 535 N. Sawyer Ave., Garfield Park Station, Chicago, Ill.

Jamestown, N. Y., March 1, 1936.

T. JAMES CLARKE,
President, A. N. A.

LEGISLATIVE COMMITTEE ON COMMEMORATIVE HALF DOLLARS.

A resolution was adopted at the Pittsburgh Convention of the A. N. A. in 1935 authorizing the President to appoint a Legislative Committee on Commemorative Half Dollars, and therefore I have appointed the following committee:

L. W. Hoffeecker, El Paso, Texas, chairman.

Farran Zerbe, New York City.

Frank G. Duffield, Baltimore, Md.

Jamestown, N. Y., March 1, 1936.

T. JAMES CLARKE,
President, A. N. A.

PROPOSED AMENDMENT TO CONSTITUTION.

Members of the American Numismatic Association:

The American Numismatic Association operates under a Charter given by the U. S. Congress, 1911-13, Vol. 37, Part 1, Public Laws, H. R. 12623, which became in effect May 9th, 1912.

Anything we incorporate in our Constitution or By-Laws must not interfere with the rights so given, and the Charter must at all times take the precedence.

Section 5 of the Charter reads as follows:

"That the control of such corporation shall be vested in a board of five governors, to be elected by the members of such association. The incorporators hereof shall act as the board of governors for the first year and until others are chosen in their stead."

Section 3, Article 2, of the Constitution violates this, (and it is not consistent with the Act, in that it places the President as a member of the Board of Governors, whereas the Charter is mandatory as to the power of five, hence, he is devoid of power on the board, which should not be.

This is manifestly an injustice to the elected President. He is placed in a position without power of a vote, and I propose that Section 3, Article 2, of the Constitution be amended to read:

"The Board of Governors shall be composed of five members elected as such, one of which shall be the duly elected President, the presiding officer of the Board of Governors shall be elected as Chairman by the Association in the same manner as the other officers are elected."

Any amendment to the Constitution can be adopted by a two-thirds vote of the membership voting at the Convention, and such amendment goes into effect upon official announcement in the official paper.

The nominee for President should be placed on the ballot as the President, and a member of the Board of Governors, a compound nomination.

There is nothing in this Charter against this, and the nomination so made would conform to the Charter that a board of five shall be elected.

I earnestly ask the membership to support the above amendment.

Yours very truly,

HENRY HUNT,

Chairman, Board of Governors of the American Numismatic Association.
March 6, 1936.

NEW YORK NUMISMATIC CLUB—326th regular meeting, February 14, Edward T. Newell, president, presiding. Twenty-one members and one guest were present.

The topic for the evening was the exhibition of proof broken-bank bills. Exhibits were made by the following:

G. H. Blake: Two \$10 notes of the first and second charter periods, issued by the First National Bank, Madison, N. J., and signed by Fred B. Bardon, a member of this club.

D. M. Bullowa: 1892 Columbian half dollar; 1619, Austria, 2 thaler, Marriage Leopold and Claudia. German East Africa, inscribed on reverse by British soldier.

O. T. Sghia: U. S. dimes, 1796 and 1824. Oblong communion token, Willis Church, Blenheim.

J. Barnet: India proof fractional currency, 50c., Lincoln, signed by Burt.

Farran Zerbe: Various paper money proofs and evidences of the once lawful and now prohibited. New design Panama 1 centesimo, bronze. Washington State tax tokens, 1 and 5 mills. Empire State Building token.

A. W. Deas: Doubloon of Peru of 1746.

T. F. Morris: Sample book of Toppan, Carpenter & Co., early engravers and printers, containing sheet plate proofs of over 75 broken banks. Models of designs for National Exchange Bank, New York City, and original designs of vignettes used on broken bank notes.

Mr. Bullowa gave a very interesting talk on Columbian half dollars and called the club's attention to the fact that the obverse of the Columbian half dollar had the initial B for Barber and the reverse M for Morgan. Of course, we all knew that Barber's initial was on the obverse of the Columbian half dollar, but none of us had noticed the M for Morgan on the reverse of this piece.

It was called to the attention of the club that Arthur Deas had a new acquisition in his family, namely, a daughter called Joan Oliver.

It was with sincere regret that during the meeting we learned of the death of our fellow member, William R. Tait. For four years before reaching his majority, when he would be eligible for membership, he had attended each of our monthly meetings. Upon reaching his majority he was elected a member of the club. He was an enthusiastic student and esteemed by all of our members. It was regularly moved, seconded and carried that the secretary be requested to send a suitable floral piece to the funeral and a letter of condolence to the family.

The executive committee's report was made in January, selecting the topic for the March meeting—an illustrated address to be made by Howard Ameli on "Counterfeit United States Paper Money"; also "Freak United States Coins." It was regularly moved, seconded and carried that in view of the interesting talk to be made by Mr. Ameli we invite the ladies.

The membership committee reported the application of Stuart Mosher, Room 2302, 580 Fifth Avenue, New York City. Mr. Mosher's application will be brought up for action at the next meeting.

The publication committee reported as follows:

"The first commemorative coins of the Commonwealth of the Philippines

are promised for delivery in March. A one and one-half peso in silver will be issued. There will be two designs of the peso coin, only one of the $\frac{1}{2}$ peso, three varieties in all. They will be released at 150 per cent. premium, costing for the United States, \$3.12 $\frac{1}{2}$ plus delivery. Quoting from official information: 'The number of pieces of each denomination which may be sold each purchaser may be subject to regulation by the proper authorities.'

'The Director of the Mint informed the Congress February 4th regarding gold coinage that 'it has not all been melted, but we are melting it steadily, just as fast as we can.' Two suspects of counterfeiting were freed in Brazil of the charge a few days ago and disappeared before their lawyer discovered they had paid him in counterfeit money. Sao Paulo is reported flooded with counterfeits. A man recently arrested had \$10,000 in false United States money. Fifty-one counterfeit \$10 notes have been traced to inmates of San Quentin Prison, where they are said to have been made and passed out to paroled prisoners. The trail started in Seattle. There may be a 1936 coinage of the Canadian silver dollar, the last to bear the portrait of King George V. As reported by the Canadian Press, 'The new coinage is to supply the general demand for silver dollars.' Counterfeits of the Washington state tox tokens, valued at one-fifth of a cent, are reported. Dies for the Maria Theresa thaler are said to have been delivered by Austria to Italy last spring, and Italy, after recalling its silver coins, has been using the metal in coining the thalers for use in the Ethiopian war zone. The unstable price of silver has checked its coinage in silver money unit countries. Silver bullion, after making a low of less than 25c. an ounce about two years ago, rose to 81c. last April and is now quoted at 44 $\frac{3}{4}$ c. The Government's purchase price for new American mined silver continues at 77.57c. per ounce. An extraordinary subsidy to silver mining interests. Why?"

BRONX COIN CLUB—Thirtieth regular meeting, February 26, President Sghia presiding. Twenty-six members and three guests were present.

Six members read papers on the topics of the evening and on other interesting numismatic subjects. All were accorded rising votes of thanks for their work. The subjects were as follows:

The commemorative coin committee reported on the expected release of the 1936 Arkansas, Boone and Providence coins. Mr. Bullowa also told of plans on new varieties and contemplated commemorative pieces. Because of the numerous difficulties involved, it was decided that the Bronx Coin Club should purchase no commemorative coins for its members after the Arkansas and Providence issues, which have already been ordered. Members will be advised of new issues by post card.

Announcement was made of the receipt of two pairs of the Frankenstein coins. After a discussion the members voted one pair to Mr. Kortjohn and made a drawing for the other. President Sghia's name was on the winning slip drawn from the bag.

Mr. Dworkowski gave a short talk on the misleading advertising which he had read in certain magazines lately. In a short discussion on the matter it was agreed that there was not much that could be done by any individual club and that the National Association would be in a much better position to get results. No further action was taken in the matter.

ATLANTA COIN CLUB—February 5, President Ketchum presiding. Six members were present. E. N. Buchanan was accepted as a new member.

A membership drive was announced by President Ketchum, who stated that club members bringing in the most new paid applications for membership in the club would share over a hundred dollars' worth of valuable prizes, including two watches, coins and bills. The prizes were donated by members and merchants. July 1st is the dead line, and President Ketchum stated that it was his earnest desire to see the club double its membership under his administration.

The evening's program was devoted to a talk by J. H. Hardwick on Lincoln. This was one of the best discussions the club has ever heard, and was made even more interesting by exhibits of coins, bills and medals pertaining to Lincoln from Mr. Hardwick's collection.

The corresponding secretary was asked to acknowledge, with thanks, Mr. Schuhmacher's gift to the club of a Boston Tercentenary medal.

The program for the next meeting was announced by Mr. Warner as being a talk on George Washington and his effect on numismatics, by J. J. Gonzales. Any address by Mr. Gonzales is looked forward to with much eagerness, consequently we expect a fine meeting next time.

ATLANTA COIN CLUB—February 19. Seven members were present, President Ketchum presiding.

The drive for new members is producing results. Three applications

were turned in, and many others are expected soon. Mr. Ketchem stated that the prizes would be displayed at the next meeting, and this served to stimulate interest even further. Mr. Gonzales expressed his appreciation of the efforts which were being made to build up and extend the club's membership. Mr. Warner spoke of his interest in the contest and also of the exertion made by Mr. Gonzales in his sincere and worthy efforts to see absent members and bring them back into the fold. Captain Brown announced refreshments for the next meeting.

The speaker of the evening was Mr. Gonzales, who made a splendid talk on Washington, including an interesting account of the first President's visit to Georgia and his stay at Savannah. Numerous fine specimens of Washington coins and medals were displayed by Mr. Gonzales. Every member felt bountifully paid for coming out on an unpleasant night to hear this interesting and educational talk by one of the founders of the club.

ATLANTA COIN CLUB—March 4. Ten members were present. Two more applications for membership were received and accepted.

Mr. Morgan, secretary-treasurer, announced that there would be a full page write-up of Mr. Hardwick's coin collection, with illustrations, in a forthcoming issue of the Atlanta Journal Sunday Magazine. This was expected to serve as a boost to the club.

The feature address of the evening was by Professor Fiske, of a local high school faculty, who gave a remarkably interesting talk on historical coins and curious money, illustrated with coins from his collection. This was much enjoyed by the club.

THE NUMISMATIC AND ANTIQUARIAN SOCIETY OF PHILADELPHIA

February 24th. A stated meeting of the society was held by invitation of Walter S. McInnes, Esq., at his residence, 1808 Spruce Street.

A letter was read from the Heart of America Numismatic Association asking our endorsement of a resolution in regard to commemorative coins.

Laid on the table. The search for publications requested by the Free Library has discovered only four items which they did not already have. The secretary's action in this matter and also his declining to open several boxes of books and papers in our library was approved.

The histographer, Mr. Lawrence J. Morris, formally reported the death of Hon. George Henderson. The Secretary was requested to write Mrs. Henderson, extending the sympathy of the membership.

For the publication committee Mr. Carly reported and the matter was discussed at some length. The committee was authorized to proceed with publication at a cost not to exceed \$550, providing the treasurer has that much available.

For the membership committee, Mr. Hearne reported favorable consideration of Mr. Edward Woolman and Mr. C. S. Ashby Henry, who were thereupon unanimously elected to active membership.

Mr. Garrison spoke of the removal of the society's library and coin cabinet to the Franklin Institute. The resulting discussion was very general. The thought seemed to prevail that the library and the coin cabinet might be considered separately. Mr. Gillingham moved that the special committee on library be authorized to communicate with the Franklin Institute and with the Free Library and report at the next meeting on what terms our library would be accepted without losing its identity. Carried.

The meeting took a recess to listen to an address on "Nicholas Biddle of the Continental Navy," by H. V. Brewington, Esq., who was introduced by Mr. Gillingham. Following the address Dr. Woodhouse moved that the thanks of the society be extended to the speaker for the very interesting address prepared from original sources hitherto unpublished. Carried.

CALIFORNIA COIN CLUB—97th meeting, March 3rd, with 32 members and seven guests present.

Mrs. J. M. Strauss, a serious collector and student of numismatics, was elected to membership. The application of William McKinley, whose present address is Denver, Col., was presented and will be acted upon at the April meeting.

The speaker of the evening was S. M. Koepfel, who gave an educational and historical talk on American money. The exhibit to illustrate his subject was beautifully done, all coins and paper money being mounted in glassed-in frames, approximately 8x12 inches, and all the titles and descriptions were done by hand on the enclosed mats. The metallic specie showed types only, from the year 1793 to the present time. The exhibit included Continental currency, colonial pieces, half cents, large cents, two-cent pieces, three-cent nickel, three-cent silver, five-cent nickel, dimes, quarters, half dollars, including several frames of commemorative half dollars, silver dollars and some different denominations of U. S. currency from the first year of issue up to the present time. Several frames of postage and fractional

currency, including the first four issues, all in crisp condition. An exhibit that will be long remembered by those who were present.

At the next meeting, April 7th, there will be a talk by C. E. Gilhousen, who has chosen the subject "Gold Mining in California."

A very fine auction was held. Many fine pieces changed hands. Some of the outstanding pieces brought unusually good prices.

WASHINGTON NUMISMATIC SOCIETY—March 10, Edward L. Weikert, Jr., president, presiding. Seven members and four guests were present.

The subject for the evening was to be an address by the Hon. William A. Ashbrook on numismatics. Mr. Ashbrook has been interested in this subject for many years and was responsible for the A. N. A. receiving its Federal Charter in 1912. At the last moment the secretary received a letter from Mr. Ashbrook advising that he would be unable to be present, due to an important meeting which he had to attend.

Those present enjoyed a talk given by Mr. Hoffecker on his travels and the collecting of coins in the some seventy-two different countries he has visited. He told of many amusing situations which arose during his travels and which caused much laughter by those present. He also told of his work in the designing of the "Old Spanish Trail" commemorative half dollar and his efforts in getting the bill through Congress and signed by the President and the disposal of them. Mr. Hoffecker was in Washington at the request of T. James Clarke, President of the A. N. A., to appear before the Coinage Committees of the Senate and House of Representatives in reference to coinage of future commemorative half dollars.

Mr. McCormick-Goodhart also gave a very interesting talk on his travels and the collecting of coins in the different countries he has visited.

Mr. Dyson exhibited a tray of commemorative coins, including the Rhode Island issues. A general round-table discussion on commemoratives was in order and many interesting points were brought up.

Mr. Meissner, who is one of the designers at the Bureau of Printing and Engraving, told of his work in designing the new Texas commemorative stamp. He started at 12.30 P. M., and at 9 o'clock the next morning the design was completed and at the White House for approval.

Messrs. McCormick-Goodhart, Rhodes and Zaruba were elected members of the society.

Regrets were received from Miss Wilkins, secretary to Mrs. Ross, Director of the Mint, at not being able to be present, but hoped to be present at the next meeting.

Names of several prospective members were received at this meeting.

The meeting adjourned at 10 P. M., and those present were invited to the broadcasting room of the Columbia Broadcasting Company Station, WJSV, where Mr. Weikert gave a very interesting broadcast on numismatics 11 to 11.15 P. M., sponsored by the Washington Numismatic Society.

EXHIBIT BY NEW JERSEY HISTORICAL SOCIETY.

The New Jersey Historical Society, in recognition of the centennial of Newark, its home town, as a corporate city, has on exhibition about 1,000 U. S. coins. These have been arranged not from the collector's standpoint but to show the public every kind of regularly used coin of this country in both obverse and reverse with all the changes in design. Except for the Columbians, there are no commemoratives, the Society never having been able to acquire them. These were prepared by Walter Garrabrant.

He also arranged the display of New Jersey cents, the Frederick A. Canfield collection. There are 117 different varieties shown, which is a lot of varieties, yet there are a few missing. The paper money exhibit is good, all New Jersey bank notes, a few new to D. C. Wismer, that always generous giver of his profound knowledge, and the collection was arranged by Charles Nettleship. Among its pieces are some examples of the Newark Whaling Company bills and also some small or fractional bills issued 100 years ago by the Mayor and Common Council of Newark. No colonial money other than the cents is shown, because it never has been examined by a numismatist until Mr. Nettleship undertook it, a work not yet finished.

The gold display is very small, but good. The silver and baser metals are very fine. The society's beautiful perfect die 1804 cent, is shown. Altogether, the exhibit will interest and inform the non-numismatic public, and the numismatist will find pleasure in it, too, though all except the New Jersey cent display is not designed for him.

L. W. HOFFECKER HONORED IN JAMESTOWN.

L. W. Hoffecker, of El Paso, Texas, designer and distributor of the Spanish Trail half dollar, and recently appointed chairman of the Legislative Committee of the A. N. A., has been in the East for three weeks conferring with President Clarke of the A. N. A. and other members of the committee, as well as with members of Congress.

In Jamestown, N. Y., a dinner was given in his honor by President Clarke at the Hotel Jamestown, for which a special meeting of the Chautauqua Coin, Stamp and Curio Club was called.

MISLEADING ADVERTISING.

Some time last year there was a lot said about these would-be coin dealers who offer to pay \$10.00 each for 1909 cents as well as many other coins. When these coins are offered to them there is always an excuse on their part that they have an oversupply and would not be interested in buying any. These so-called dealers are spreading among the general public the idea that numismatists are just a bunch of crooks, out to get rare coins for a song, and, in turn, sell them for a large profit. Unless something is done about this it will become impossible to buy from the public. Send your ideas about what should be done.

Is the History-Making Record of the Rhode Island Tercentenary Half Dollar

**My Prediction That This Would Be a One-Day Sale
Has Come True.**

To the hundreds of Numismatists throughout the United States, Canada and Philippines, who favored me with their orders, I wish to express my thanks. I have kept you posted as to the progress of this issue to the best of my ability, and have spared no expense to fill your orders promptly.

The many letters of commendation I have received prove that my efforts have not been in vain.

Total number of orders received by me were nearly 11,500. Number of coins obtained from the Tercentenary Committee approximately 6750. A NEW BOOK

Mint Record and Type Table U. S. Coins

Due to continuous requests for my book, "Mint Record U. S. Coins," I have rewritten same and added a type table showing all major varieties of each denomination as well as the number of pieces issued each year from each mint.

Such major varieties as the Half Dime of 1796-6 over 5, Half Dollar 1873 S Mint, no arrow heads at date, etc., are listed. These and many others are not listed in the other check lists or catalogues, some of them costing twice as much.

The Commemoratives are in one section, showing number issued as well as number melted and number available. This applies to the Commemorative Gold as well as Silver.

At the close of each denomination there is space conveniently arranged for you to record the number of pieces struck at each mint for three years following.

This book is arranged so you can enter cost of each type coin in your collection, 1793 to 1935, inclusive, enabling the collector to have a complete record of his collection with him at all times. It is a handy pocket size, 3x6 inches, over 100 pages, gold stamped, cloth cover.

Price \$1.00 Postpaid.

1912 "S" Mint 5c. Nickel

1912, the last year of the Liberty Head "V" type 5c. nickel, was the first year a 5c. nickel piece was coined at the San Francisco Mint. Mint records indicate that only 238,000 were coined, making the 1912 "S" Nickel the scarcest piece of this type and also the smallest coinage of any nickel from 1881 to date. I have a limited number of the 1912 "S" 5c. Nickel in uncirculated condition at \$1.50 each. I also have some specimens of this coin in Very Fine condition at 50c. each and in Fine condition at 30c. each.

1931 "S" Mint 5c. Nickel

The 1931 "S" Mint 5c. Nickel is probably the outstanding Nickel of recent mintage. This piece is proving difficult to obtain even here at the source of issue. I can't supply this coin at present in strictly uncirculated condition. I have, however, some specimens that might be termed uncirculated, but I am calling them Extremely Fine, as I do not want to take any chances. These I am offering at 35c. each. Also have some in Very Fine condition at 20c. each.

St. Petersburg, Florida,

Always has for sale a good collection of the coins of the world and is in the market to buy more for cash.

If you have a real collection, send it to me for appraisal and I will tell you promptly what it will bring. I need as large sets as possible of U. S. Silver and Foreign Gold. Also will take a fine collection of Roman and Greek coins if properly labeled.

Commemoratives do not interest me to any great extent. When I wish to speculate I always buy good stocks on the N. Y. Stock Exchange and pay for them. No man ever lost anything in the long run being a Bull on America. The public will hold the bag on commemoratives later on.

My home in the Sunshine City this summer is at 2822 Second Ave. North, and you will usually find me there, either working 15 hours a day or sitting in the shade. Write me if you buy coins, and maybe we can do some business.
